## PROFILE

I am an aspiring UX/UI Designer who is eager to learn and gain memorable experiences as I continue to grow. Always eager to adapt and take on new challenges.

## EDUCATION

### Drexel University

09/2020 – 06/2025 | Philadelphia, United States  
Currently pursuing a BS Degree in User Experience and Interaction Design

## SKILLS

**Design** (Figma, Adobe Photoshop, Illustrator, Bridge)),

**Web Development** (CSS, HTML, Javascript),

**Soft Skills** (Curiosity, Communication, Collaboration, Empathy),

**Microsoft/IOS Applications** (Sheets, Docs, Slides, Excel)

## COURSES

### User Interface Design I-II

Creating and Prototyping responsive designs for advanced topics of graphical user interface design for desktop, mobile, and touch screen devices

### Web Authoring I-II

Exploring the principles and techniques for creating Mobile First, Responsive websites using advanced HTML5, CSS3, Javascript, Embedded Fonts, and version control

## ORGANISATIONS

### VietLead

*Cook/Expeditor*

02/2020 | Philadelphia, United States

- Leader/Co-Leader of the Food Station among the Festival which consisted of certain roles such as being a main cook, expeditor, or doing prep work
- Working within a team where we quickly meshed together to provide a quick/clean service by assigning roles that fit respective strengths which led to a near-perfect service

### Asian Americans United

*Sales Representative*

09/2016 – 2019 | Philadelphia, United States

- My team was responsible for the profit being made from the selling of merchandise, crafts, etc.
- We designed a new system that would provide the customer memorable experience while also boosting the sales of past events

## PROJECTS

### Senior Research

*Girard Academic Music Program*

- I focused on how Parental Influence affected the period of adolescence within teens
- Initially gathered information at the local libraries and databases before expanding into a larger scale
- After building a base for the project, conducted multiple case studies which had control groups that consisted of all ages to gain different perspectives on the topic
- When the research was concluded, moved on to the final part of the project process which was to take all of the data gathered and poured that into a written research report

## INTERESTS

**Photography** (Applying the beauty of the real world into my designs),

**Traveling** (Constantly gaining inspiration to maintain the excitement of design),

**Volleyball** (Maintaining a healthy active lifestyle outside of the UX Design World)
